CANTERBURY SCHOOL

Better Together

Our community and its commitment to educating the whole child was exemplified by our 96% faculty retention. This allowed for continuity and the chance to make meaningful, lifelong relationships. Students and teachers were able to dig deeper using 21st century lessons integrated with classic Judeo/Christian tenants.

Strength From Within

As a pro-active response to restructure some of our practices and procedures, we hired a Chief Strategy Officer to best steward our resources. This allowed for a stellar year of fiscal accountability and growth, including the expanded spaces of Armfield Hall and Ketner Science and Technology Center.

Mission Statement:

Canterbury's mission is to develop the whole child by challenging the mind and nourishing the spirit in a diverse community guided by Judeo-Christian values.

CANTERBURY SCHOOL

Growing a Vibrant Program

Our initiatives and reputation brought considerable increases in admission inquiries from families of all backgrounds and beliefs. This allowed us to continue to expand and develop our campus and programs, and provide a safe place for students to prepare for a lifetime of meaningful learning.

With growing expansion in our early childhood program, we are excited to announce a second Cubs class and learning lab in Fry Hall.

WE CAN'T DO IT WITHOUT YOU

Thanks to our donors, we are able to continue to maintain our commitment to living our motto: To Learn, To Love, To Serve: To Live.
